SAVE TIME AND MONEY By Cleaning, Repairing and Painting BEFORE SEEDING.

Rivets, Brooms, Axes, Brushes, Horse Combs, Paints, Varnishes, Stains, Yale Locks, Bolts, Polishers, Oils, are a few of the USEFUL things you need.

C. W. ROSSELL
SKATES ARE CHEAP.

Agriculture Directors Meet

A meeting of the directors of the Agricultural Society was held in the Town Hall on Saturday afternoon last, with a good attendance.

A report was read from President McLaughlin, who had been a delegate to the Fair Convention recently held in Edmonton.

The object of the meeting was considering the prize list for this year's fair.

It was decided to add to the list a prize for a special class for general purpose horses.

The Poland China pig class was eliminated from the prize list, and there were some few alterations in the prizes for cattle.

Owing to a lack of time, no further progress was made on the prize list, and this will receive further attention at the meeting to be held in Stony Plain on Saturday, the 12th of April.

A Good Afternoon Spoiled

A very interesting story has just been submitted to the Sun for publication regarding a gay Lothario from Guardian Valley named Pete Brownbaker, who had motored a very particular friend to Edmonton on a recent Sunday. On the return trip, and while the machine was under feminine guidance, it very stupidly tumbled over into a nearby ditch, busting a tire, wrenching the radiator, and twisting the axle, about eight miles from home. The trip was finished behind Doldin in a laggy.

Dance at Brightbank.

There will be another popular dance at the Brightbank Schoolhouse Friday, March 28th. Good music will be provided, and the ladies are kindly asked to bring cakes.

Wheat Pool Sign-up Campaign

The big drive for new members in the Wheat Pool is on this week, and continues to the 31st. A strong effort is being made to get every grain grower to join the Wheat Pool for this year, and the many advantages accruing to the members is being placed before all farmers.

The U. F. A. organization is particularly active in this connection, and campaigns have been organized by practically every local in the province.

The great success which has attended the efforts of those who initiated the big Pool last year is proof of what is to be gained by joining up with the movement. The first payment to be made to members of the Alberta Co-operative Wheat Producers on the basis of their participating certificates will be approximately two and a half million dollars.

This sum is being distributed this month, and is said to amount to about ten cents a bushel.

By signing a contract now, the grower may, if he wishes, market the remainder of his 1923 crop thru the Pool and will receive the same price at the end of the season as all other Pool members for a like quality and grade of wheat. In this case the grower should date his contract as at the date on which he signs it. It will then become immediately effective.

If on the other hand a grower is still holding a portion of his 1923 crop which he does not want to put into the Pool he may sign a contract and date it August 1st, 1924. It will not become effective until that date. No contract should be dated later than August 1st, 1924.

LOCAL NEWS

Meridian Lodge held its regular monthly session Tuesday night.

Mr. Lohr made a motor trip to Poncha on Sunday.

Mr. L. Harris of Duffield was a business visitor to Stony on Tuesday.

Mrs. R. A. Gosset arrived home on Tuesday from her trip to England.

Mr. Mike Gambel spent Sunday visiting his son in Edmonton.

A very nice run of pictures of Egypt were shown at the Methodist Church Thursday evening by Mr. Wilson.

Mr. Miller of Stony Plain Garage announces that he will have a new 1924 Model Ford Car on the floor of his garage some time early next week.

Old Mr. Thomas, who died on Friday last, was buried in the Cemetery on Tuesday, March 18.

The list for ladies' work in connection with the local fair to be held in July are now ready, and may be had from the secretary.

Radio lines at the local station were started the other evening when a message from the air pertaining to several local sports was received. Supposedly it was transmitted from the Igloo but at Edmonton.

A sitting of the District Court was held in Stony on Tuesday, the 18th, with a number of cases on the docket. His Honor Judge Crawford presided.

At the local Court on Saturday last Yurko Capp, Mike Capp and A. Nother appeared before the J. P. charged with stealing 14 hogs the property of the Sheriff. After the evidence was taken, the three were remanded for trial on recognizance of \$1000 each. Messrs J. Malloch and R. W. Spears (Edmonton) appeared for the accused, with F. W. Landy for the complainant.

Mr. Ducholke has opened the farming implement season by selling a number of gang plows, one to John Schulz and another to Henry Giese. On Friday he sold a three-bottom plow and 10 30 Titan tractor outfit to the Messrs Greenhuff at Keep Hills.

The directors of Stony Plain Agricultural Society have arranged to have a sale on Saturday, March 29, of donated articles, the proceeds to go to the funds of the Society. Donations already promised include a purebred Shorthorn calf, purebred pigs, purebred poultry and other useful and valuable articles. Donations may be left at Ducholke's Hall. Further information may be obtained from any official of the Society.

Canada's Coal Problem

As this article is being written a conference of vital importance to all Canada, and one that, if it reaches a wise decision, will have a far-reaching effect on the whole Dominion, is proceeding at Calgary. Possibly before these words appear in print the die will have been cast for good or ill, but regardless of what that decision may be we are convinced that sooner or later the views herein expressed must, and will, prevail.

The conference to which reference is made is that between the coal operators, or mine owners, of Alberta and the officials of what is known as District 18 of the United Mine Workers of America; in other words, the miners' union. On April 1 the existing contracts and wage agreements between the mine operators and the Union expire, and the conference is proceeding with the object of negotiating new agreements.

The Union leaders are reported as insisting upon the maintenance of the existing high wage schedule, and in so doing are standing on the declaration of policy of the recent convention of the United Mine Workers at Indianapolis against any reduction in wages and a four-year contract. In other words, the demand is that the peak war wages shall continue to prevail.

One of the forceful arguments advanced by the Alberta miners in support of the unusually high wages they now receive is that mining operations are only carried on to full capacity for a matter of the six or seven winter months, and that during that period they must earn enough to maintain themselves and families for twelve months.

Within recent years, and particularly last year, vigorous efforts have been made to overcome this difficulty and, by finding an all the year round market for Alberta coal, guarantee continuous employment to the miners, and also through the resultant enormous increase in production reduce overhead costs per ton of coal mined, give needed stability to the industry, and reduce the selling price to the consumer.

To realize this object two main difficulties have to be overcome. The necessary market for all the coal Alberta can mine exists in Ontario and Western Quebec. Ontario is clamoring for Alberta coal, because experimental shipments and tests have demonstrated its quality as satisfactory. But Ontario is a long distance away, and the cost of transporting the coal so extensive as to make the price prohibitive in competition with coal from the United States.

The second difficulty is found in the abnormally high wages paid coal miners in Alberta which makes the cost of coal at the pit mouth high, and which, coupled with transportation costs, makes its marketing and sale in Ontario impossible.

The result is that with billions of tons of coal in Alberta, Ontario continues year after year paying \$100,000,000 to the United States for coal, while the Alberta mines close down or on short time for one-half of each year. Canada's adverse balance of trade with the United States is thus swollen, our money is drained away across the line, United States miners are kept busy while Canadian miners are idle, and United States railways get traffic which our railways ought to have and need, and Ontario's industries are in jeopardy and may be ruined and thousands of workers thrown out of employment if at any time conditions develop which may force the prohibition of export of coal by the United States.

But if, instead of demanding the highest wages paid to any group of workers on the American continent, the Alberta miners would agree to accept a reasonable wage schedule, the cost of coal at the pit mouth could be reduced, and by continuing mining operations throughout the summer months permit of the rail movement of coal to Ontario during the slackest months in Western transportation activities, and thereby make possible a lower freight rate. Thus the two main obstacles to Ontario being supplied on a commercial basis with Alberta coal would be reduced if not entirely overcome.

With all the year round employment guaranteed to them the Alberta miners and their families would be better off financially, mentally and morally at a reduced wage than with the now prevailing high wage, but with steady employment for only about half the year. Full time operation of the mines would place the coal industry of Alberta on a firm foundation which it has hitherto lacked, would encourage capital and development, thereby creating more and more employment, and, as already stated, reduce overhead costs of production so that the Ontario market could be served, and, what is of equal importance, the present high price of coal to the prairie consumer reduced to a reasonable figure.

If sound business principles and common sense are allowed to prevail at the Calgary conference instead of a "Made in the United States" policy for the United Mine Workers being enforced through which that country is enabled to keep control of the rich Eastern Canada market for coal, then a brighter era will dawn for the Alberta miners, and lasting benefits conferred on the Dominion through the inauguration of policies tending to make Canada a more self-contained, self-supporting country, the absence of which condition is today our outstanding national weakness.

The latest fad among some women of fashion is to have their portraits painted while they sleep.

Manila rope is made from the stems of the leaves of a species of banana.

For many years women have served as town councillors in Reykjavik, the capital of Iceland.

Try to be contented with your lot, even if it isn't a corner lot.

CHILDREN CRY FOR "CASTORIA"

A Harmless Substitute for Castor Oil, Paregoric, Drops and Soothing Syrups — No Narcotics!

Mother! Fletcher's Castoria has been in use for over 24 years to relieve babies and children of Constipation, Flatulency, Wind, Colic and Diarrhoea; playing havoc with their stomachs and, by regulating the stomach and bowels, aids the assimilation of food; giving natural sleep without opiates. Civil Service Reduction

Premier King Says Reduction Will Be Carried Out Slowly

While the government plans reductions in the civil service, they will be effected gradually and with such consideration as will involve the minimum of hardship, Premier Mackenzie King told the board of control and the city members at Ottawa.

The premier said the government was now preparing its estimates for parliament, which would expect it to show very substantial reductions. However, any that were made would not be effective until the first of the fiscal year, April 1.

Hon. James Murchison remarked that any of those laid off would get two months' pay, which would carry them over until June 1.

Women! Dye Faded Things New Again

Dye or Tint any Worn, Shabby Garment or Drapery

Each 12-cent package of "Diamond Dyes" contains directions so simple that any woman can dye or tint any old, worn, faded thing new, even if she has never dyed before. Choose any color at drug store.

Coal Output in Alberta

Production For Year 1923 Was 6,868,924 Tons

Over two million tons of Alberta coal were sold to Canadian points outside the province and to the United States during 1923, states the annual report of the provincial mines branch.

The total production of coal for the year was 6,868,924 tons, 1,332,758 being disposed of for consumption in Alberta, 1,937,753 for other provinces and 3,598,413 tons in the United States. To the railway companies 3,119,121 tons were sold. The total production for the coal mines in Alberta during 1923 was 6,868,924 tons over the total for 1922. Up to the end of 1923 the report cites Dominion statistics to show that Alberta mines since 1888 produced 69,249,519 tons of coal to the approximate value of \$121,715,815. The domestic coal fields of the province turned out 3,161,741 tons of coal in 1923; production in the sub-bituminous coal fields totalled 463,441 tons.

HEALTHY CHILDREN ALWAYS SLEEP WELL

The healthy child sleeps well and during his waking hours is never cross but always happy and laughing. It is only the sickly child that is cross and peevish. Mothers, if your children do not sleep well, if they are cross and cry a great deal, give them Baby's Own Tablets and they will soon be well and happy again. The Tablets are a mild but thorough laxative which regulate the bowels, sweeten the stomach, banish constipation, colic and indigestion, and promote healthful sleep. They are absolutely guaranteed free from opiates and may be given to the new-born babe with perfect safety. The new sales tax will not increase the price of Baby's Own Tablets, as the company pays the tax. You can still obtain the Tablets through any medicine dealer at 25 cents a box, or by mail, post paid, from the Dr. Williams' Medicine Co., Brockville, Ont.

Makes Homes Happy

The secret of happiness in many homes is recognition of tobacco as an influence for good. Observant women are realizing that the man who smokes becomes more contented and forgets his worries.

Corns are painful growths. Holloway's Corn Remover will remove them.

Man's Faith

One of the curious things nowadays is that men who doubt almost everything that is told to them will drink without question anything the boot-legger tells them is whisky.—Detroit Free Press.

One Thing At a Time

Too Many Transportation Problems Before the Public

A resolution urging the early completion of the branch lines projected by the Canadian National Railway in this province has already been adopted by the legislature.

A resolution urging the completion of the Hudson's Bay Railway is now before the legislature and will undoubtedly be adopted.

The Great Lakes-St. Lawrence canalization project is being pushed in this province. A gentleman from the United States who is interested in it addressed a committee of the legislature recently and spoke at the School Trustees convention in Saskatoon.

The "western route" for grain shipment through Vancouver has its champions in Saskatchewan, as naturally has also the established eastern route through Winnipeg and the Great Lakes.

At the present time the transportation problem in Saskatchewan is split five different ways—or at least four different ways, as the branch lines question is purely local in its primary aspect, although it has ramifications which make it both a provincial and a national matter.

The desirability of the people of this province making up their mind as to what they want and when they want it in respect to the transportation questions referred to is apparent. They will get nothing unless they can show that they know what they want and are determined to fight for it.—Regina Leader.

Pine Air is Good For Catarrh, Colds

Dwellers in pine forests never have colds, never know the meaning of Catarrh. Upon this fact is based "CATARRHOZONE," which sends late the lungs and nostrils the healing balsams and soothing antiseptic of the pine forest.

The health-giving vapor of "CATARRHOZONE" subdues the worst of coughs, colds and catarrh.

The deepest corners of the lungs are treated, the uttermost parts of the bronchial tubes are reached, every cell in the nose and throat is bathed in the antiseptic balsam of CATARRHOZONE. Simply invaluable is CATARRHOZONE because so safe, so effective, so sure to stop business, whooping cough, catarrh, nose colds or bronchitis—try it yourself.

Complete two months' treatment guaranteed, price \$1.00; small (trial) size 50c. At all druggists. Refuse a substitute for CATARRHOZONE. By mail from The Catarrhose Co., Montreal.

Prince a Symbol

Symbolizes Something That is Necessary to the British Empire

The Prince of Wales symbolizes something that is necessary to the functioning of the British Empire. He is a lay figure, on which tailors and haberdashers and bootmakers manage somehow to get their wares so that the subjects of the Empire and the citizens of other countries will wear similar wares. And let it be said to the credit of the Prince of Wales that he does it well.

He accomplishes gracefully and with just enough verve a task, which would make most men ridiculous. The world holds, as 'twere, the camera up to this young fellow, and he meets it in a half-demure, and altogether charming manner.—Cincinnati Times-Star.

ROYAL YEAST CAKES

Good home-made bread is the finest food on earth—the one food that everybody eats—that everybody likes—and that agrees with everybody.

MADE IN CANADA

Want Athabasca Sands

California Men Request Samples of Oil Extraction Tests

Many requests are reaching the Dominion lands office here for experimental purposes. The majority of these come from persons in the States who are experimenting with extraction processes by which endeavors are being made to solve the commercial problems in connection with this mineral.

A number of the interested parties are located in Los Angeles, California, where the proximity of bitumen beds affords the opportunity of contrasting the northern mineral with that of the southern state.

Last season twenty tons of the tar sands were brought from the McMurray area and stored in Edmonton, the samples being in charge of Alex. Norquay, head of the local land office, who is arranging the distribution of the material to those interested.—Edmonton Bulletin.

Stomach Cramps Yield to "Nerviline"

When double up at midnight with cramps you don't feel like experimenting; what you want is something to remove the cramp. Nothing acts so effectively as Nerviline. Take twenty drops in a little sweetened water, and quick as wink the cramp is gone. Nerviline is about five times as strong as most medicines, and because so strong, only a small dose is required to give instant effect. For stomach, gas, fermentation, cramps, etc., Nerviline should be kept in every home. For sure protection, get "Nerviline" today. 35c at dealers.

Trump: Madam, I was not always thus.

Madam: No, it was your other arm you had in a sling yesterday.

Indigestion

The most discouraging feature of nervous indigestion is the fact that it does not tend to right itself.

The nerves continue to grow weaker and weaker because the digestive system is not supplying proper nourishment and the digestive system fails for lack of nerve force.

The nerves must be restored by some other means and this is where Dr. Chase's Nerve Food comes to the rescue.

It revitalizes the wasted nerves and builds up the nervous energy which is essential to the healthful working of the digestive system.

You will notice that while the price of Dr. Chase's Nerve Food has been increased to 60c, the box now contains 60 pills instead of 50 as formerly.

Likewise Dr. Chase's Kidney-Liver Pills are 35c for 35 pills, instead of 25c for 25 pills. Edmonson, Eaton & Co., Ltd., Toronto.

New Box 60 Pills 60 cts.

Solution Of Problem Of Utilizing Enormous Tonnage Of Straw Annually Wasted

The following interview has been given out by Major G. C. O'Sullivan, in charge of the C.P.R.'s department of utilization and development, with regard to the work done by the C.P.R. with respect to experimenting in the manufacture of paper from the enormous waste straw.

In a report published in the Weekly News Bulletin, issued by the Government of Alberta, Edmonton, February 2nd, a statement is attributed to Premier Greenfield that successful tests in connection with the manufacture of paper from western waste straw had been carried out with the cooperation of the Canadian National Railway. It is well that credit should be given where credit is due and Premier Greenfield no doubt has information as to the co-operation given by the National Railways towards the solution of this important problem which is not available to the general public.

Premier Greenfield would no doubt, however, be interested to learn that the pioneer (the following) research work into the utilization of western waste straw is the work of a pioneer in any large development movement whether connected with transportation, agriculture or immigration, that is affecting the western provinces, namely, the Canadian Pacific Railway.

The work of this company in its efforts to find a solution of the problem of utilizing the enormous tonnage of straw annually wasted and burnt on the prairie provinces dates back as far as 1916. About that date the company engaged in considerable expense the services of the Arthur D. Little Company, whose report and research work on the possibilities of manufacturing pulp and paper from western waste straw, still constitutes the most complete investigation of this problem which has yet been made. The result of this work showed clearly that a high grade pulp could be manufactured from this material from which a high quality of paper was made and actually utilized for some time in the executive offices of the Canadian Pacific Railway.

Possibly the report referred to by Premier Greenfield may have been that recently published on further investigations on this subject carried out by the bureau of standards of the United States at Washington. It is interesting to note that once again the Canadian Pacific Railway, co-operating with the Honorary Council of Scientific and Industrial Research, not only suggested that further tests should be made on western straw in order to ascertain the possibilities of making a cheaper grade of pulp suitable for the manufacture of newsprint but also collected and supplied the Canadian raw material which was utilized in these tests.

The Honorary Council of Scientific and Industrial Research have acknowledged by letter the co-operation given by the Canadian Pacific Railway Company and in a report printed by the Paper Trade Journal of August 2nd, 1924, giving the results of the tests of the bureau of standards of the United States Department of Commerce, reference is made not only to the source of supply of raw material, but also to the investigations made and paid for by the Canadian Pacific Railway through the agency of the Arthur D. Little Company and to literature printed and published by the Department of Colonization and Development of the Canadian Pacific Railway.

The result of these many years of work bids fair to bear practical fruition in the near future. Very recently an important pulp and paper manufacturing company, after studying the results which had been obtained through the investigations above referred to, sent their representatives to Canada and have made a thorough investigation of the Manitoba situation, their plans for the establishment of a large industry to manufacture pulp from western straw are well advanced and it is believed that the first practical development for utilizing this hitherto wasted material will shortly become an accomplished fact.

It is only right that credit should

be given where credit is due and the above brief review of the work carried out toward the development of a new industry through the agency of Canada's premier transcontinental railroad is only in keeping with the broadminded policy which has inspired that railroad in the past and which led to the expenditure by the Canadian Pacific Railway of vast sums on pioneer work in irrigation, model farms and numerous other activities for the benefit of western development.

Federal-Aid Roads

Two years from now, according to the law now in effect, we may expect to have 300,170 miles of completed well-paved highways in this country. At present there are only about 27,000 miles of such roads. The federal-aid system calls for this work in co-operation with the states.

When it comes to co-sponsoring for the average woman might take a few lessons from the humble egg.

Supplying Bacon Type Sows

Good Records Are Shown Through Introduction of Breeding Stock

The introduction of long grading has created a general demand for breed sows of bacon type. To point farmers in securing these, the livestock branch of the Department of Agriculture at Ottawa, through the agency of 400 men, makes suitable stock available in districts where it is most needed.

According to the report of the Dominion Ministry of Agriculture for the past fiscal year, 127 head of bacon type sows were purchased in Ontario and shipped for sale direct to farmers in various parts of Quebec. Besides these, more than three hundred Quebec breed sows were turned over from the breeders to districts that had not been supplied. In the province of Alberta, according to this report, 47 young sows of the Yorkshire breed were purchased and sold to pig club members, and a quantity of similar stock was made available to Christian settlers. That this work will produce good results in due time is shown from the experience of the Peace River district, which was supplied with bacon type hogs of both sexes two years ago. The stock coming out of the district the year following the introduction comprised a much higher percentage of select stock than that marketed from other parts of Alberta.

Favorable Situation Enables Canada To Compete In The Wheat Markets Of World

Russia's Debts to England

A Matter of Three Billion, Eight Hundred and Eleven Million Is Outstanding

In the note of the British Government extending recognition to Soviet Russia in this paragraph, "Technically unconnected with recognition, but clearly of utmost importance, are the problems of settlement of the existing claims by the government and nationals of one party against the other and the restoration of Russia's credit."

The importance of the problems referred to may be gathered from the fact that the war debt of the Russian Government to Great Britain is \$3,250,000,000. In addition, according to the Soviet's own figures, the pre-war investments of British people in Russia amount to \$260,000,000, and an additional amount of \$261,000,000 of British money has been invested mainly in oil, copper, thread and tobacco in Russia, making a total indebtedness of \$2,811,000,000. (Montreal Herald.)

The disclosures arising out of the investigation of the United States Tariff Commission of relative costs of producing wheat in the United States and Canada, indicates that the Canadian farmer can produce wheat far more cheaply than can the farmer in the United States. Larger yields per acre, lower taxation and lower freight rates, resulted, in the year 1923, in the Canadian farmer being able to produce a bushel of wheat for 46 cents less than the United States farmer.

It was shown that on an eleven-year average the production cost of a bushel of wheat in the United States was \$1.58 as against \$1.22 in Canada and that in 1923, while it cost the United States farmer \$1.45 to produce a bushel of wheat the Canadian farmer was able to produce it for \$1.02. Canadian farmers can get their wheat to its outlet very much more cheaply than can United States farmers. The average cost of wheat transportation in the United States is 1 cent for 37 miles, while in Canada a bushel can be carried for 66 miles for the same cost. The average price of all hard both cultivated and uncultivated in the United States is \$65.25 per acre, whereas the average price of farmland actually occupied in Canada is but \$19 per acre over the entire Dominion. The average price of land devoted to wheat growing in the United States is \$92 per acre and in Canada \$42 per acre. The yield per acre in recent years has been higher in Canada than in the United States.

Looking to the future of Canadian agriculture the figures are encouraging as illustrating Canada's ability to compete in the wheat and flour markets of the world. But they are perhaps even more significant as indicating that wheat production is being discouraged in the United States by economic conditions and that country, with its increasing population, will, before many years, become an importer rather than an exporter of wheat and flour, and a big market for the Canadian farmer.

Prize For America

Sir Auckland Geddes Says Britain Can Learn Much From U.S.

Great Britain has many things to learn from the United States, Sir Auckland Geddes, former British Ambassador to that country, declared at a banquet given in his honor by the Anglo-American Society in London.

Sir Auckland told his pilgrim audience that Great Britain not only could benefit in purely industrial developments, but in art and architecture, social service and agriculture, especially horticulture. Protection of the home market, Sir Auckland asserted, people in the United States attributed as the secret of the country's prosperity.

Sir Auckland upheld the funding of the war debt as a great work that would yield future fruit, while he advanced the opinion that a great deal of misunderstanding existed in the minds of the British people relative to the American viewpoint on prohibition. "Given the American problem, given the American climate, if I were an American I would be a prohibitionist," he said.

Sir Auckland said the British working people might well envy United States wage earners for their housing facilities and for the comforts and luxuries they enjoyed. Undoubtedly they were better housed, fed and clothed than their kindred here. He would urge the Labor Government, where special care was directed to the wage earner, to consider whether anything could be learned from the practical methods of the United States.

Wagging Off Corn

Sixty-five hogs were last year allowed to "hog off" the corn grown on an acre and a half on the C.P.R. domain, situated near Brooks, Alberta. The hogs were left at the work for ten days, beginning Sept. 25. They averaged 110 pounds when starting and gained an aggregate of 1,200 pounds during the period, or about 40 to 50 pounds per day for each animal. Noting the gains at 7 cents per pound would make the total return \$42, or \$54 per acre, with all costs of harvesting the grain eliminated.

ALPINE CLUB IN LARCH VALLEY

ABOVE: MOUNT PINNACIAL - BELOW: ANOTHER VIEW OF THE CANADIAN PACIFIC SOCIETY. INSERT: SUNDAY SERVICE IN CAMP.

Every year the Alpine Club of Canada holds a camp at some different point in the heart of the mountains from which its members may climb the surrounding peaks, make excursions to adjacent valleys, and lead a life free from any care but that of the passing hour. Some hundred and fifty or two hundred people attend and, necessarily, arrangements are systematized. There are ladies' quarters and men's quarters in different parts of the camp. In the centre is a large canopy covering the tables thronged at meal times. Close by is the cook's tent and the offices of the executive and secretary who attend to the many wants of the members. Each evening programmes for the next day are posted on a notice board and parties made up for various expeditions. The Climbing Committee has an absolute veto on applications in order that no inexperienced aspirants may attempt an expedition beyond their power. Later the members meet around a huge camp-fire, and as the sparks fly up and the moon shines upon the distant snow peaks, stories are told of climbing experiences and explorations made by men whose work is of real importance; songs are sung and the members retire early as climbers start at abnormal hours.

In 1923 the camp was held from July 15th to August 5th in Larch Valley above Moraine Lake. The situation was a beautiful one and the views magnificent. So warm was the weather during the first few days that the valley stream began to shrink noticeably. On the evening of July 20th, snow started to fall and by early morning from eight to ten inches covered the ground. Two of the hill tents were borne down by its weight and the dining canopy had to be continuously scraped free from snow. The snow dispersed quickly but the weather remained inclement until the end of August.

Members were, by no means disappointed, though some of the most interesting climbs were rendered impossible by weather conditions.

Mr. Temple rose above the camp. It stands out like a cape from the mass of mountains towards the Bow Valley, and commands a glorious view extending as far as Mt. Robson on a clear day. It is not difficult and was a popular climb. Ascent was made directly from the camp, saying the detour by Sentinel Pass. Conditions varied greatly. One party which started on a promising morning encountered a storm on the summit be-

ginning with hail and snow, and ending in a thunderstorm. Several of the party were more or less severely shocked. Camp, however, was reached in good time and afternoon tea was most thoroughly appreciated while more or less authentic stories of personal experiences were related.

Other interesting climbs of neighboring peaks were made, notably Mt. Pinnaciel, Neptunus and Number Ten of the Ten Peaks. Several excursions were made to Lake O'Hara, over the Weaksiemans and Ogilvie Passes. Mt. Odey was climbed and return made to camp over Abbot Pass where the new, luxurious hut erected by the Canadian Pacific Railway was much appreciated.

The charm of such a camp consists in the good fellowship engendered, at the fact that all are members of the club, meet on the same level and are linked with the same interests. The planning and thinking is done by the executive and members have but to think where to place their hands and feet, and to forget all cares of the outside world. The Alpine Club is doing a great work in bringing the Canadian mountains within easy reach, not only of all the people of Canada, but of the world at large. (H. H. H.)

Women who suffer from any feminine ailment should try Lydia E. Pinkham's Vegetable Compound.

SAYS WEST HAS NOT RECEIVED FAIR TREATMENT

Ottawa.—The recent speech in the House by Hon. R. J. Mackay (Conservative, Fort William), was critically analyzed by Alfred Speckman (Progressive, Red Deer). Progressives, he said, might be accurately described as benevolently neutral, provided that term was taken to mean that they were sitting tight, but always on the watch. He would support any legislation from any quarter of the House if it accorded with the views and interests of his constituents.

Mr. Speckman said that Dr. Mackay was probably right when he said that there was much depression in Canadian industry, but he did not think increased protection would pull them out of their depression. The contention that it would be unfair to remove the protection from industries which had enjoyed it for many years, especially if they were not in good shape, was not a reasonable one, said Mr. Speckman.

If any farmer of the west had been housed for 15, 25 and 50 years by the government, and at the end of that time could not make farming pay without the bonus, it was time he left the farm.

Mr. Speckman called special attention to the three problems of taxation, credits and transportation. He admitted that heavy taxation would be a continuing necessity, owing to fixed charges and uncontrollable expenditure. He urged the necessity of using the best method of taxation, and advocated the income tax as the most equitable of all. He urged government action in regard to credits, not to extend, but to consolidate, the indebtedness of western farmers. In regard to transportation, he asked for equality between east and west in freight rates. He closed by stating that all desired national unity, but that it could not be denied that there was not a feeling of harmony between all parts of Canada. The west had not been treated fairly, and western members called attention to this, not with a view to whining, but in order that it should be recognized and a remedy provided.

Here Is What A Mother Says

"I Have Found in Dodd's Kidney Pills a Veritable Friend."

Mrs. G. B. Albert tells how Dodd's Kidney Pills relieved her daughter, Le Bonheur, N.E.—(Special).—Claiming that her daughter has been completely relieved of headache and heart trouble, Mrs. G. B. Albert, a well-known resident here is enthusiastic about Dodd's Kidney Pills.

"I have found in Dodd's Kidney Pills a veritable friend. My daughter Magdalena, aged 17 years, suffered from severe headache and could only get broken sleep at nights and would wake up more tired than when she went to bed. She also suffered with heart trouble. Two boxes of Dodd's Kidney Pills have relieved her and she is now quite well."

Dodd's Kidney Pills are a kidney remedy. They strengthen the kidneys so they can do their work of straining the impurities out of the blood. Dodd's Kidney Pills are intended for the treatment of backache, diabetes, rheumatism, dropsy, urinary troubles, heart disease and all ills of the kidneys.

Increase in Marriages

Ottawa.—Marriage seems to be increasing in popularity. According to a census bulletin recently issued. The proportion of married persons in each sex was greater in 1921, when the last census was taken, than in either 1911 or 1901. In 1921 the percentage of married males was 37.48 and of married females 34.52. In 1911 the percentage was: Married males, 34.65; married females, 26.97.

FEET SORE?

Rub every night with Minard's. It relieves inflammation, soothes and heals.

Carnarvon Controversy Reaches a Deadlock

Cairo, Egypt.—The negotiations for a peaceful solution of the controversy over the tomb of Tutankhamen have collapsed and it is understood the Egyptian Government has withdrawn its offer of a new concession to the Countess Carnarvon, to carry on the work in the tomb begun by her late husband. The breaking off of negotiations was due to a remark made in court by the lawyer representing the Carnarvon trustees. The lawyer, referring to the action of the minister of public works in closing the tomb, referred to the Egyptians ministers as bandits.

Alberta Election Act

Candidates in Provincial Elections Must 25 Names on Nomination Papers

Edmonton.—Candidates in the provincial elections in the future will be required to have 25 signatures on their nomination papers before their names will be put on the ballot papers, according to an amendment to the proposed election bill which was passed by the committee of the whole in the election act. Only four signatures were required.

The residence qualifications in the new bill have also been modified. Only two months' residence in the electoral division will be required, instead of three, as was the case in the past. The voter, however, is required to have been resident in the province for at least 12 months previous to the election.

W. G. Johnson (Labor, Medicine Hat), suggested that some provisions be made whereby women who were British subjects, but who married men who were naturalized, would be given an opportunity to vote. At the present time, immediately a woman marries, she adopts the nationality of her husband, and may be disfranchised.

France Secures Loan

Large Banking Credit is Arranged by U.S. Financiers

New York.—Establishment of a banking credit of not less than \$100,000,000 in favor of the Bank of France has been arranged by an American banking group headed by J. P. Morgan and Company, it is announced.

The loan is fully secured by gold held in the vaults of the Bank of France, which is acting for the French Government, and will be used to stabilize French exchange and for such other purposes as the French Government may determine.

While details of the loan were not made public, it is understood that it will not run for more than one year. In the event that the credit is not, at maturity, liquidated in other ways, gold in amount equal to the loan will be shipped to the Morgan firm in New York.

Irish Army Troubles

Dissatisfaction Stated to be of Long Standing

Dublin.—General Tobin, a leader of the secessionist faction in the Irish Free State Army, told newspaper men here that the trouble in the army was not of recent date, nor was it connected with the recent forced demobilization of numerous officers. Shortly after the death of Michael Collins, the situation was allowed to drift. Former British officers were placed in high positions while those who had made the Free State Government possible were forced out or put in minor positions. Guarantees were repeatedly promised but the promises were always broken, General Tobin declared.

Advisory Tariff Committee

Ottawa, Ont.—William Elliott, Progressive member for Waterloo South, intends to move in the House that the government should consider the advisability of appointing an advisory tariff commission to inquire into and make recommendations to this parliament regarding any increase or reduction of the customs tariff which may be contemplated.

The Caliphate from now on will be personified by the Turkish Parliament, according to an announcement by Mustafa Kemal Paşa, president of the Turkish republic.

THE MANY ILLS THAT CONFRONT THE FARMERS

Winnipeg.—On the average the farmer pays 75 per cent. more for his goods today, while for his products he gets only 12 per cent. more than in 1912, and that is what is wrong with agriculture," declared Hon. T. A. Crerar, M.P., before the Manitoba Economy Conference here.

It was the cause of hundreds of young men leaving the farms and seeking work in the city. It was robbing the farm of the labor it needed, and was economically unwise. It was a problem, not alone for farmers, but for other bodies to endeavor to solve, Mr. Crerar said.

The remedy, Mr. Crerar believed lay in lower cost of production. The increased cost of producing goods required by the farmer was due largely to the cost of labor and decrease of hours of work. He was not dealing with the right or wrong of labor's attitude, but how it affected the farmer.

If costs, however, did not come down, Manitoba farmers would, in ever increasing numbers, be living within themselves. They would make many things they could buy, and that would not be a good thing for business.

Transportation was of vital importance to the farmer. Rates might be brought down if traffic could be increased, and this could be brought about by immigration of the right kind.

Fat Stock Show

Saskatoon, Sask.—A great showing of beef cattle, many of them prize winners at the Manitoba provincial winter fair at Brandon, and prize horses from all parts of Western Canada, marked the opening in the exhibition grounds of Saskatoon's 1924 annual horse and fat stock show.

This year there are approximately 150 more animals exhibited than in 1923, when an entry list of just over 200 was regarded as a record.

HEART WAS SO BAD HAD TO SIT UP IN BED

Mrs. O. E. Fitzgerald, 108 Ross St., St. Thomas, Ont., writes:—"In the Fall of 1921, I was taken ill with my heart, but I did not pay much attention to it. I kept on with my household duties, but seemed to become worse and worse, and finally had to call in a doctor. He said I was all run-down and was a nervous wreck. I had a severe pain in my chest which would move over to my heart and it became so bad I could not lie down, as when I did I had such a smothering feeling I would have to sit up in bed till it passed away."

I tried several remedies, but with no good results. Finally, I was induced to try Milburn's Heart and Nerve Pills. I took 7 boxes, and I am now as well as I was 29 years ago, and I am now 45 years old."

Milburn's Heart and Nerve Pills are 50c a box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Ada Blackjack Ill

Seattle, Wa.—Ada Blackjack, 25-year-old Eskimo woman who was the sole survivor of the Wrangell Arctic expedition rescued by Harold Noyce last summer, is in the city hospital with her seven-year-old son, Bennett, suffering from tonsillitis. She has been living with her boy in rooms in destitute circumstances.

Edmonton Stampede

Edmonton.—Directors of the Exhibition Association here approved a plan for the presentation of a "stampede" here next summer after the nature of the annual event in Calgary.

Decrease in British War Expenditures

London.—Alluding to the anxious inquiries by many as to why there should be an increase in air armaments, William Leach, Under-Secretary to the Air Ministry, during a discussion of air estimates in the House of Commons, said the answer was that the government was not increasing, but adjusting armaments between the forces, army, navy and air, with the net result that there would be a considerable decrease in war expenditures for the year. By March, 1925, eighteen squadrons would be ready for home defence out of fifty-two proposed within the next five years.

Saskatchewan Estimates

Proposed Expenditures Show a Reduction of Over a Million Dollars

Regina.—With a total estimated revenue of \$18,594,929 and a total estimated expenditure of \$16,525,320 for the fiscal year ending April 30, 1925, the Saskatchewan Government hopes to make its budget practically balance, according to the estimates tabled in the provincial legislature by Premier Denning.

A comparison with the estimates for the preceding year indicates there is no intention of providing for any material increase in revenue by the adoption of new or increased taxation. Estimated expenditures show a reduction of \$1,293,798 as compared with the estimates for the previous fiscal year and estimated revenue a decrease of \$1,328,543.

After giving the United Church of Canada consideration clause by clause over a period of several weeks and listening to heated wrangles between the opposing factions, the legislative committee on private bills completed their review of the various clauses of the measure and arrived at a basis of report. No amendments were made conflicting with the broad principle of the bill.

British Legation Damaged By Bomb

Greek Officials Express Regret at Outrage at Athens

Athens.—A bomb was exploded at the entrance to the British legation, causing material damage, but inflicting no one. Greek officials expressed belief that the incident was staged in an effort to discredit the government.

The Premier and the Minister of the Interior expressed the regrets of the Greek Government to the British Minister for the outrage. An inquiry was opened under the direction of British police officials and several suspects were detained.

Nation Independence

London.—The Daily Express gives great prominence to a statement to the effect that a dispute between the Pope and the Italian Government is about to be settled and that, in consequence, the Pope no longer will consider himself a prisoner in the Vatican.

WILL OPPOSE ANY INCREASE IN EXPRESS RATES

Ottawa.—"The province of Alberta is strongly opposed to any increase in express rates, and would urge that any revision be of a downward and equalizing character," said A. Chard, traffic supervisor for the Alberta Government, in a statement read before the Board of Railway Commissioners at the hearing of the Express Traffic Association's application for an increase in rates.

To charge the consumer in Calgary \$2.46 per hundredweight to bring his fruit in carload lots from Okanagan Landing, 158 miles away, while the man in Montreal can get his fruit from Grimsby, Ont., a distance of 200 miles, in any quantity for 95 cents," said Mr. Chard, "is a fairly good reason why fruit is not moving in the province in any substantial quantity."

It is true the rate applicable to Calgary is a blanket rate, extending as far east as Winnipeg, but that does not justify the fact that the consumer in Alberta has to carry the load in order that the producer in British Columbia may extend his market to Manitoba, even if the latter rate were a low rate, which it is not, as compared with the rate applicable in Eastern Canada. For instance, the rate from Okanagan Landing to Winnipeg, 1,190 miles, is \$2.46 per hundred pounds, while the rate from Grimsby, Ont., to Halifax, a distance of 1,183 miles, is \$1.50. This long distance blanket rate, being 60 per cent. higher than for a similar distance movement in the east, is imposing a burden indeed.

"Likewise," said Mr. Chard, "when the consumer in Edmonton wants to eat fish which he gets from Vancouver, 770 miles away, he pays \$2.35 per hundred pounds, while the consumer in Montreal can bring his fish from Halifax, a distance of 341 miles, for \$1.50. These are some of the reasons why Alberta will support British Columbia in her application for consideration of the commodity rates into the prairies. There should be no rate structures that will prohibit the free exchange of commodities inter-provincially between Alberta and British Columbia. Our grain, livestock, agricultural products and coal should be allowed to flow freely to the Pacific, our natural port, on an equalized rate basis. Likewise, there should be no barrier to our importing our tea, our sugar, our lumber, our fruit, our fish, in fact, all commodities which we consume."

Dutch Farmers For B.C.

Victoria, B.C.—To examine lands in the Stuart Lake district of Northern British Columbia in preparation for the establishment of a colony of Dutch farmers there, representatives of a Dutch emigration organization, probably will come to British Columbia shortly.

By Air Between Sweden and England

Stockholm.—A regular air service to connect Sweden and England will be established shortly. Only six hours will be required for the flight.

The Stony Plain Sun

A Great Railway Exhibit at London's Great Empire Show

(1) The way to the imposing building of the Canadian Pacific Railway at the British Exhibition is long and straight. (2) The Exhibition Hall is filled with displays of Canadian products and scenic views. (3) A complete section of the railway track.

Canada's exhibit at the British Empire Exhibition, which opens at Wembley next month, will be one of the most interesting and attractive features of the whole. No phase of Canadian life or activities has been overlooked and every resource of the country will be displayed to good advantage. The Canadian Pacific Pavilion, which has been designed to harmonize with the Government building, directly faces the main bridge leading into this portion of the grounds and at once catches the eye of all visitors. This pavilion is a massive building, approached by a broad flight of steps flanked on either side by bronze models of buffalo and moose. A strong color scheme will be strikingly emphasized at night by a Neon lighting effect similar to that at the Coliseum in London, wonderfully penetrating and effective under all atmospheric conditions, and another attractive feature of the exterior will be the endearing series of illuminating panels in relief depicting the manifold activities of the Canadian Pacific. Equally alluring will be the decorations and exhibits in the interior of the pavilion. The floor space on the ground floor comprises 1,700 square feet. Along the main floor there runs a 400-foot frieze illustrating the Canadian Pacific route from the United Kingdom to Japan. In this diorama there will be moving models of Canadian Pacific liners crossing the Atlantic and Pacific oceans, mechanically driven and electrically illuminated, and the train journey across the Dominion will be depicted by two Trans-Canada trains, each consisting of locomotive and eight coaches. These also will be electrically illuminated and mechanically driven, with head and rear lights etc., and the realistic effect will be supplemented by an illuminated air system, automatic gates, and all the other appurtenances of a complete railway track.

In an adjoining section of the interior exhibits there will be shown six mechanically and electrically illuminated vitascope models of Liverpool, Quebec, the prairie region, Banff Springs Hotel in the Canadian Rockies, Vancouver and Yokohama.

A fruit orchard scene in British Columbia and a scene depicting Japan and Japanese life are next presented for the entertainment and edification of the visitors. The model of Japan gives a general view of the country around Fuji Yama, with the world-famous Mount Fuji rising high in the heavens. There will also be models of Japanese houses, bridges, streets and other typical sights of the Flowery Kingdom.

Prospective settlers in the Dominion will be attracted by the model of a 100-acre irrigation farm in the west, with all the buildings and equipment, running water and moving train running across the 100-acre. The adventure-lover will be charmed by the diorama scene depicting the big game life of Canada. Grizzly bears, black bears, wolves, muskox and other representative specimens of the denizens of the wilds will confront the spectators in defiant attitude. All over the building, too, the heads of big game will snarl or grin, according to the respective temperaments of their animal owners.

The lecture hall, which will accommodate 300 people, is very artistically arranged and decorated. Numerous cases, containing grain, fish, birds, maple sugar and honey exhibits will be on view. There will be a continuous cinema performance in this hall between the hours of one and five-thirty, and between seven and ten, with a lecturer in attendance to explain and entertain.

Stony Plain Agricultural Society

LADIES' WORK FOR 1924 FAIR.

No article which won a first prize at last Fair will be allowed to compete. All articles presented for competition must be fresh and clean. No worn articles will be accepted. Competition limited to ladies living in the Stony Plain and Lac St Anne Constituencies, except the classes for collections, which are open to all comers. Class numbers and prizes will appear in the Price List.

Value Of Education

General Sir Arthur Currie, principal of McGill University, put forward a new idea of education in a recent speech, where he said: "Your education is not something to set yourself apart from your fellowmen, or something you can use for your own selfish advantage. It was given to you that by your living you could add something to the happiness of the world." This is not theory, but broad common sense—and coming as it does from a great Canadian educational leader, it carries added importance. The Montreal Gazette.

BROKEN IN HEALTH

After An Attack of Influenza—Health Now Restored.

"I am writing to tell you what Dr. Williams' Pink Pills have done for me," says Mrs. J. H. Oulton, Firdale, Man. "A few years ago I was in a badly rundown condition, so much so that I was subject to fainting spells which would leave me in such a condition that I could hardly go about. Then I was stricken with influenza, which was epidemic at that time, and this still further weakened me, and throughout the whole winter I remained in this condition. I was constantly taking doctor's medicine, but as it did not seem to help me, my mother advised me to try Dr. Williams' Pink Pills, and I got a couple of boxes to start on. When these were done I seemed to feel an improvement and I got a further supply to continue the treatment. I took in all about a dozen boxes, and by that time I was in the best of health and had gained in weight. My faith in Dr. Williams' Pink Pills is now unbounded, and I keep a supply on hand and take them occasionally if I am not feeling quite well. I often recommend them to others, and cannot praise them enough for restoring my health."

Dr. Williams' Pink Pills are useful in all cases where the blood is thin and watery as their mission is to build up and purify the blood. That is why they give new strength and vigor after an attack of influenza, and it is also the reason why they are beneficial in nervous disorders, neuralgia, rheumatism and that condition generally described as all run down.

You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

There's no denying the fact that the man who would sit down on the sick covering of a bed to take off his shoes is a brute.

W. N. U. 1216

WORLD HAPPENINGS BRIEFLY TOLD

Immigrant traffic from Germany to Canada during the coming season should reach unprecedented proportions, according to officials of the White Star-Devonshire Line.

During the two years ended March 31, 1923, there was an increase of 2,441 in the number of war veterans who have taken up farms under the soldier settlement board. At March 31, 1921, the total was 25,442, and at the end of the last fiscal year was 28,981.

German Cabinet officials in their endeavors to keep up with the times and make two or three speeches daily in cities long distances apart, have resorted to the use of aeroplanes in making quick trips to various parts of the republic where they had speaking engagements.

An offer of £100,000 for proprietorial rights in a well-known British medical journal, it is understood, has been made by prohibitionists who, believing that the ultimate verdict on the matter of prohibition rests with the medical profession, are anxious to secure the journal for propaganda purposes.

Thinks Swearing All Right

Yes, providing the provocation equals the offence of James stepping on Smith's sore corn. Far better to use "Putnam's" Painless Corn Extractor, it does lift out corns in a hurry. No corn can last if "Putnam's" is applied. Refuse a substitute. 25c everywhere.

New Trade Crows

Figures Show in Indisputable Way That Business in Canada is Forging Ahead

The net increase in traffic on all Canadian canals in 1923 was 1,194,281 tons, or 11 per cent, over the 1922 traffic, according to figures issued by the Bureau of Statistics. Canadian steam vessels using the St. Lawrence canals showed an increase in tonnage of 594,327 tons, and United States steamers showed a decrease of 288,063 tons.

Total trade figures for the month of January show a favorable balance of over \$3,000,000, as compared with the same month a year ago. The total trade for January, 1924, was \$138,645,327, as against \$132,744,787 in the corresponding period of 1923. Exports for the past month totalled \$48,575,167, while imports amounted to \$84,468,060, leaving a favorable trade balance of \$3,107,107.

Sores Flow Before It.—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Electric Oil. All similarly troubled should lose no time in applying this splendid remedy, as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

B.C. Apples in Demand

Heavy Shipments Are Made to the Prairie Provinces

At a special general meeting of the Veranda Fruit Union, Messrs. A. T. Howe and Hembling were re-elected as representatives of the union on the directorate of the Associated Growers of British Columbia. In a report of last year's work, it was stated that the Associated Growers had shipped 2,226,000 boxes of fruit to the provinces of Manitoba, Saskatchewan and Alberta, while 607 cars had been sent to the United Kingdom.

In addition 108 cars had been sent to various foreign markets, including Holland, Belgium, Scandinavia, China, Africa, New Zealand and Mexico. Direct representation of the Associated Growers in Great Britain was urged in the report.

The Oil of the People.—Many pills have come and gone, but Dr. Thomas' Electric Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thousands have benefited by it and would use no other preparation.

Try living on 15 cents a day if you are troubled with dyspepsia.

As a rule, what the heart longs for the head and the hands may obtain.

Farm Help Supplied

Farmers Take New Attitude Towards Employment Situation

Farmers are coming to realize that hiring farm labor for a few months of the year only is not as economical as it appears, being, in fact, expensive both from a national and individual viewpoint. When a man is brought in from the east or from a greater distance for work which only lasts part of the year, in the long run his fare is paid both ways by the farmer hiring him, the money he earns is taken away from the area of his labor, and he again becomes an unemployed man for the country to place.

Ninety-five per cent. of the applications coming in from Canadian farmers for farm help under the scheme originated by the Canadian Pacific Railway, offer employment for the year round. This discloses a decidedly new attitude in the farmer's outlook on the farm employment question, and reveals a result which is not generally appreciated at the general progress being made in rural farming throughout Canada.

Applications are coming in at a very pleasing rate this year, and an even greater number of experienced agricultural laborers is expected to arrive in Canada under the auspices of the Canadian Pacific Railway to be placed with farmers who have asked for them, than came out last year, the first of its operation. The scheme proved so successful last year, in fact, that it has been continued as a permanent feature of the immigration and colonization work of the company, utilizing in a new and novel manner, as it does, the widespread ramifications of the giant organization.

Wherever in Europe the Canadian Pacific has established itself, the Canadian farmer can secure help of the class he desires through the agency of the company.

PIMPLES BLOTCHES

All skin diseases such as pimples originate through failure of the kidneys and liver. All taints that block the avenues of health must be removed. Dr. Hamilton's Pills do this quickly. They cleanse the system, make the skin smooth, restore roses to the cheeks, and give clear, dainty complexion.

DR. HAMILTON'S PILLS

For good looks, good health, and good spirits, there is nothing so sure as Dr. Hamilton's Pills. 25c boxes, 50c for \$1.00, all dealers, or The Catarthozome Co., Montreal.

Within the Law

"How do you suppose a lawyer measures his feet?"

"He doesn't."—Life.

Clark's Spaghetti for Luncheon

Clark's Spaghetti with Tomato Sauce and Cheese is an ideal luncheon dish, or entree. Deliciously flavoured, it is a fine substitute in Lent for the meat course.

"Let the Clark Kitchens help you."

A woman is no used to planting things that she can't understand why a man should make so much fuss over a missing button.

SUNDAY SCHOOL LESSON

MARCH 23

THE REIGN OF SOLOMON

Golden Text: The fear of Jehovah is the beginning of knowledge. Proverbs 1:7.

Lesson: 1 Kings, Chapters 3 to 11; 2 Chronicles, Chapter 1.

Devotional Reading: Psalm 45:1-7.

The Year Explained and Illumined
1. Solomon's Trust in God: His Prayer for Wisdom, 2 Ch. 1:7-12. The night of the sacrifices at Gibeon (see The Historical Background) God appeared to Solomon in a dream and said, "Ask what I shall give thee."

"Choose well; your choice is brief and yet endless" (Goethe). Solomon first spoke of his own ascent to the throne of Israel as a great kindness shown to his father David; compare 1 K. 1:48. He begged God to let his promise unto David be established, "for thou hast made me king over a people like the dust of the earth in multitude." This oriental hyperbole seems a reference to the promise made to Abraham in our first lesson of the year.

Then Solomon made his famous choice: "Give me now wisdom and knowledge, that I may go out and come in before this people; for who can judge this thy people that is so great?" "To go out and come in before a people" was a proverbial expression meaning to conduct public or military affairs. "Happy the land whose ruler deems it his highest function to administer justice!" Solomon men in his dream doubtless expressed his waking and deliberate wish. He had wisdom enough to make him wish for more" (Wood). "Solomon's prayer exhibits a strong sense of responsibility and a conviction that high position involves corresponding duties; a consciousness that truth and falsehood, right and wrong, are not always easy to distinguish (1 K. 3:9); and that such gifts are derived from God, who bestows them in answer to prayer" (Dummelow). "Although Solomon's choice was made in a dream we must regard it as springing from his will in some degree, and therefore as indicative of his moral character. Aristotle says, 'The dreams of good men are better than those of ordinary persons, and it seems certain that the will is often only partially suspended, even in our natural sleep.'"

Internal parasites in the shape of worms in the stomach and bowels of children sap their vitality and retard physical development. They keep the child in a constant state of unrest and, if not attended to, endanger life. The child can be spared much suffering and the mother much anxiety by using a reliable worm remedy, such as Miller's Worm Powders, which are sure death to worms.

S.C. Railway Ties For Egypt
The Sudan Government, through Capt. E. C. Midwinter, general manager of railways and steamers, Sudan, has accepted a tender from a British Columbia firm for 150,000 railway ties of Douglas fir. The contract expressly stipulates the railway ties shall be of Canadian origin.

Stony Plain and District.

Monday's train from Vancouver was over 8 hours late.
Oscar Schneider, Calgary, was in Stony on Tuesday.

Mr J. E. Levy of Fort Saskatchewan was visiting over the week end with Mr Robbins at Rosenthal.

The hockey game on the local rink on the 16th resulted in a win for Eric's team by 16 to 10.

The concert on Monday, the 17th, given by the St Patrick Ass'n, proved to be very good for a short-order affair. The crowd present appreciated the various items on the program, some of which were appropriate to the saint's day which was being celebrated. The dance which followed was of the usual good kind.

The chicken supper and concert at the Spruce Grove Presbyterian Church Friday night was very well attended and proved a great success.

J Kotschensky has removed his sawmill from the Spruce Grove setting to the House ranch at Brightbank.

The Sutherland brothers are said to have purchased the Kruger farms at Inga for \$4000.

The auction sales now going on in this district are attracting the attention of cattle buyers from the City, who are willing to pay good prices for cattle, particularly milk cows.

Meredith Bros. shipped a car of hogs on Tuesday from Duffield.

Mr John W Fryer, the enterprising Brightbank farmer who had his auction sale set for St Patrick's Day, Monday last, changed his mind and postponed the sale to a later date. Mr Fryer had intended going to Detroit, where some of his family are at present residing.

The home of Mr Peter Goshel, north of the Grove, was destroyed by fire on Saturday afternoon last. The house was a total loss, and very little of the contents were saved.

I can provide you with a Life Assurance Policy to suit your particular needs. R. B. Brooks, local agent for The Sun Life Assurance Co.

Calendar.

March 20—Fred Harmell sale.
21—Jake Mayer sale.
21—Boxing bouts at Spruce Grove.
31—Spring Show at Edmonton.

Note to Potato Growers

As all potatoes are Government inspected now, don't bring in any that are scabby or cut or undersize, as they will be rejected by the inspector.

Promotion for Mr. Hollinshead

Mr Hollinshead has secured the appointment as instructor in the new Indian Industrial Residential School, north of Edmonton, and will assume charge on leaving Stony. Mrs Hollinshead has been offered the position as instructor in household economy in the same institution.

Card of Thanks.

The undersigned wishes to express his hearty thanks to Councillor Goss for his courageous and untiring efforts to obtain the 2 adyta. which appear in this issue, from Inga Municipal District.

THE EDITOR

Income Tax Papers.

Income tax papers for 1923 are now available for citizens of Alberta, and may be obtained at the local postoffice from 9 a.m. to 7 p.m. These returns must be sent to the Inspector of Taxation at Calgary by the 30th of April. There is said to be practically no change this year in the regulations.

Trail Ranger Officers.

At their regular meeting on Monday the Trail Rangers elected these officers—

Big chief, M Donaldson.
Little chief, H Trapp.
Tally, Giles Clarke.
Cash, T Shroves.
Sponsor, Ed Hall.
Editor, Lorne Outway.
Mentor, Mr Wilson.

Comet News

A very nice selection of lantern slides were shown in the schoolhouse last week, and were much appreciated by the scholars.

Mr Ray Gordon is now running a \$2 taxi service to Stony on special occasions.

Keep your eye on Easter Monday, for the big dance at Ombel.

Chicago to Jasper in Summer

The Canadian National Ry. in conjunction with Chicago & N.W. Ry., will establish on Saturday June 7, thru service between Chicago, Winnipeg and Jasper National Park, the largest national park in Canada and where the railway company operates a first class hotel.

The Weekly Poem.

This is the season of the year
When farmers sell their junk.
Regardless of the wind and rain
The auction brings a lot of make
To blow the hard-earned plank.

We stand around, a dismal group,
Upon the frozen lawn,
And bid in shorn and chicken coop,
And hear the long-drawn, dismal whoop
Of "Going! Going! Gone!"

I much admire the Auctioneer
Who braves the rain and snow;
His smile extends from ear to ear;
He springs the jokes I used to hear
Some forty years ago.

Here and There

Manitoba is perhaps the most marrying province in Canada. For instance, in Ontario, there were 24,971 marriages in 1921, a rate of 2.5 per 1,000, while in Manitoba it was 3.7 per 1,000 of its 810,000 population.

Eastbound steamship travel from Canadian ports via Canadian Pacific steamships is heavier at the present time than for several years past at this season, a recent report declares. Bookings in some harbours have run as high as 70 per cent in excess over those of last winter.

According to a recent official compilation, out of every 100 people in Canada 51 live on farms. The 70,000 farms in Canada represent a gross worth of \$700,000,000 or about \$10,000 per farm, and produce an annual revenue of nearly \$1,500,000, an average income per farm of \$2,000 yearly.

From the opening of the crop year, September 1st, to the official closing of navigation, December 15th, the Canadian Pacific Railway reported the heaviest marketing of grain since the inception of the road. Cars loaded by the company also created a record for the season, having numbered 116,332. Grain marketed topped the \$200,000,000 bushel mark.

Thirty-seven per cent of all automobiles in Canada are owned by farmers. Ownership of the balance, according to recent statistics, is made up as follows: business men and brokers, 16 per cent; salesmen and travellers, 16 per cent; professional men, 8 per cent; laborers, 4 per cent; contractors and heavy men, 1 per cent each, and miscellaneous and no occupation stated, 18 per cent.

When the Canadian Pacific liner "Empress of Canada" left New York on January 28th for her great round-the-world cruise, she was the first Canadian vessel ever to commence such a voyage carrying a regular bookstall in the charge of experienced attendants, in addition to a free library. The stock includes many excellent recent books on travel, which will enable passengers to prepare themselves for the foreign lands they will visit, as well as a large number of novels by the best-known authors.

Of the total wheat exported from Canada in November, amounting to 64,104,502 bushels, by far the greater proportion went to the United Kingdom, which took 42,315,391 bushels. The United States was second largest importer of Canadian wheat, taking 9,810,148 bushels. Italy came next, taking 4,812,112 bushels, and Greece next, with 2,000,460 bushels. The exports of Canadian wheat to France during this period amounted to 1,325,500 bushels and to Belgium 1,075,210 bushels. There to Germany totaled 120,130 bushels.
